

*(The following article is from the Danville newspaper, also found by Paul Davisson, at the start of the 1946-1947 school year. There is considerable variation in the spelling of names between the kindergarten list and this first grade list--a normal but frustrating fact when you look back at school rosters. Note that there were 35 students in each of the first grade classes!)*

## Total Enrollment of Local High and Grade School Reaches 600 Mark
